Objective

To contribute to KBC Global Services as a Python Developer, leveraging my experience in AI, NLP, and software development to enhance the KATE digital assistant.

Professional Experience

Python Developer

Tech Solutions Inc., Anytown, USA

June 2019 - Present

Collaborated with technical and business experts to develop and enhance KATE use cases.

Trained, maintained, and deployed highly scalable NLU and NLP models.

Integrated data providers from internal systems and third-party applications.

Analyzed logs, debugged code, and resolved technical issues and bugs.

Deployed applications using CI/CD tools to ensure efficient workflows.

Optimized the KATE system for maximum speed and scalability.

Software Developer

Innovative Tech Labs, Anytown, USA

July 2016 - May 2019

Built and deployed chatbots, enhancing user interaction capabilities.

Managed relational and NoSQL databases (PostgreSQL/DynamoDB).

Developed and maintained RESTful API services for seamless integrations.

Education

B.Sc. in Computer Science

University of Technology, Anytown, USA

May 2016

Skills

Programming Languages: Python (3+ years)

AI/ML: NLU/NLP, Machine Learning, TensorFlow

Databases: PostgreSQL, DynamoDB

DevOps: Docker, CI/CD, Terraform, AWS

Tools: Rasa framework, GitHub, Linux

Other: Excellent English (spoken and written)

Key Competences

Strong foundation in Python and its frameworks/libraries.

Hands-on experience with chatbots and deploying AI models.

Proficient in integrating and managing data sources.

Skilled in optimizing systems for performance and scalability.

Adept at problem-solving, critical thinking, and analytical tasks.

Personal Attributes

Eager to learn and open to new tools, technologies, and processes.

Team player with a collaborative, solution-oriented mindset.

Quick learner with strong problem-solving skills and adaptability.
